### Our Team

Our advisors are certified and seasoned experts from various horizons, committed to provide high-end quality consulting. They hold various leading industry certifications including PMP, PRINCE2, CBAP, ITIL, CGEIT, CISA, CISSP, MCSO.NET, MCITP, MCSE, MCT, ORACLE & many Others.

This provides a benchmark to ensure that you are getting solutions that are up to highest standards & geared towards your organizational skills development & capacity building needs.

## Featured Technology Advisory

### Software Licensing & Management

We help our clients to address IT software licensing complexity, optimize and manage their license estate and reduce license costs.

We have strong working relationships with all major technology vendors and having understanding of vendor policies, global market differences and a clear primary business focus on software and licensing.

### Technology & Software Deployment

We live new software and technology by accelerating deployment, configuration and adoption with confidence, while minimizing costs.

Prudential works with your organization to manage and support technology and software deployments with minimal operational disruption.

### Technology Support & Maintenance Outsourcing

Today, companies are looking at outsourcing their IT support and maintenance process as an area of influence on your business success and competitive advantage.

We provide technology & software maintenance support services thereby freeing up the client's resources & budgets to focus on their core business strategy.
